WORK EXPERIENCE

Associate Software Developer - (Reactjs Developer)

Digitalflake

12/2022 - Present

Pimple Nilakh, Pune, Maharashtra

Achievements/Tasks

- Admin Panel Expertise with Shark Tank's Woloo and Humpy Startups :
- Developed **Formik form** with a seamless flow, **mirroring the step-by-step installation process**. This design facilitates easy navigation and usage for users, while also implementing **warnings** to deter any **attempts to disrupt** the established flow.
- Developed a **Role-Based Access Control (RBAC)** system **from the ground up** to **manage and restrict** access to **specific functionalities based on user roles and this RBAC is dynamic**, allowing for easy **modifications** directly from the **frontend**.
- Developed a feature that generates **graphs** based on specified filters and displays them on the **dashboard using Highcharts**.
- Payment **integration** for purchasing subscriptions using **Razorpay**. For **secure** and efficient transactions.
- Set up **CRUD operations** for easy data management and Employed **Formik** along with **Yup** library for form **creation and validations**
- Integrated **react-table** to display data in an organized way, like a table that's easy to read and work with.
- Check out the live website: <https://portal.woloo.in/>

Nextjs developer

Digitalflake

Achievements/Tasks

- Ximkart Landing page and Inventory Management System :**
- Used **Next.js framework**, styled with **SASS** with **React.js**.
- Made the entire user interface **dynamic**, allowing easy management and **changes** through a **JSON file**. It's like having a **flexible design** that you can update without diving into the code.
- Ensured the **websites** are **responsive**, adapting smoothly to different devices like mobiles, tablets, and laptops.
- Developed an infinite scroll feature from the ground up** and integrated it into tables, ensuring a **smooth** and uninterrupted **experience** when navigating through extensive sets of data.
- Check out the live websites:** <https://revind.ai> And <https://sevenloop.org>

Reactjs developer

Freelancing

01/2022 - 11/2022

Achievements/Tasks

- Created SPA, Landing using Html, Css, Javascript and Reactjs

EDUCATION

B.E. in Civil Engineering (05/2018 - 06/2021)

- Graduated with **84.55%**
